### R A G S.

A good price will be given for clean cotton and linen rags, and paid either in money or good writing paper, at the Printing Office in Worcester.

It is earnestly requested that the fair daughters of Liberty in this extensive County, would not neglect to serve their country, by saving for the paper mill in Sutton, all linen and cotton and linen rags, be they ever so small, as they are equally good for the purpose of making paper, as those that are larger. A bag hung up at one corner of a room, would be the means of saving many which would be otherwise lost. If the ladies should not make a fortune by this piece of economy, they will at least have the satisfaction of knowing they are doing an essential service to the community, which with 6d. per pound, the price now given for clean white rags, they must be sensible will be a sufficient reward.
